FOR IMMEDIATE RELEASE

Cody Consulting Hires Tonya Teschendorf to Lead Expanding Compliance Department

TAMPA, Fla. (May 31, 2012) — In a move to enhance core service offerings to clients, Cody Consulting is expanding its compliance department by hiring seasoned health care compliance professional Tonya Teschendorf. Teschendorf, who most recently served as Senior Manager of Corporate Compliance at WellCare Health Plans, joins Cody Consulting as its Director of Compliance.

In her new role, Teschendorf will provide compliance consultation to ensure health plan clients are adhering to the Center for Medicare and Medicaid Services' (CMS) regulations, focusing on clients in Section 508 review and ensuring internal and external audit workflow processes are in place. She will also handle oversight of the Regulatory Analyzer™, a module in Cody Consulting's proprietary software CodySoft™, which ensures all collateral materials produced by a health plan are in compliance with both state and federal guidelines.

"We are thrilled Tonya is joining our team," said Deb Mabari, MBA, CEO of Cody Consulting. "Her deep experience and ability to draw from many years of best practices will bring a superior level of expertise to our clients dealing with the complicated and sometimes painful compliance process."

Prior to spending seven years in corporate compliance at WellCare Health Plans in Tampa, Fla., Teschendorf was an Administrative Director for the YMCA and an HR Compliance Specialist for Manpower, Inc. She has a bachelor's degree in Business Management and Human Resources from Cardinal Stritch University in Milwaukee, Wis., and she belongs to the Health Care Compliance Association and the Society of Corporate Compliance and Ethics.

"There is a lot of talent at Cody Consulting, and I am very excited to join such a great company with so many industry heavy-hitters," said Teschendorf. "It's mind-boggling how complex health plan regulations are, and I'm looking forward to consulting with Cody's clients to help ease the compliance process."

About Cody Consulting: Cody Consulting works one-on-one with health plans to find solutions that cut costs and increase efficiencies. We accomplish this by helping our clients strategically integrate operations, marketing communications, compliance, information technology, print fulfillment, customer service and call center functions. Managed care organizations (MCOs) specializing in state- and federally funded health programs are our specialty. For more information, visit www.codyent.com.
